

Online Book Study

April 4th – May 9th

Participants will collaboratively discuss the nine chapters in the text and reflect on the following:

- the role of brain development and mathematical learning
- the power of students making mistakes and productively struggling in the math classroom
- how to establish mathematical mindsets through the use of rich mathematical tasks
- teaching and assessing students for a growth mindset in the math classroom

To register go to www.ceacopilot.org and complete the following:

- Verify your Colorado Education Association membership and create your login credentials; if you've verified your membership already, simply Log In.
- The promo code is f57tE22E
- From the COpilot homepage, click on Mathematical Mindsets in the "More Courses." Select the section from the drop down and click "Enroll."
- Enter the Enrollment Key Cla\$\$room
